| Body length, in | 26 | 27 | 28 | 29 | 30 | 31  | 32  |

## 2. GLOBAL PRINTFUL PRODUCTION RULES

|                                                                                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>ARTWORK FILES</b> <ul style="list-style-type: none"><li>• Transparent PNG only for Printful uploads</li><li>• 300 DPI at final physical size</li><li>• sRGB IEC61966 2.1 color profile</li><li>• No mockup background, shadow, texture, crop marks, or white canvas</li><li>• Keep exact aspect ratios. Never stretch the GA shield or oval marks</li></ul> | <b>EMBROIDERY</b> <ul style="list-style-type: none"><li>• Standard flat embroidery, one thread color</li><li>• Printful performs digitization. Do not upload DST, PES, or EXP files</li><li>• Minimum line thickness 0.05 inch. This badge is intentionally heavier</li><li>• No shield background fill. Garment fabric remains visible inside the crest</li><li>• Reuse the exact same uploaded file to preserve paid digitization</li></ul> | <b>DTFLEX PRINT</b> <ul style="list-style-type: none"><li>• One front print plus one added back print for Oval program</li><li>• Minimum line thickness 1 point or about 4 pixels at 300 DPI</li><li>• No gradients, transparency effects, distressing, or simulated metallic ink</li><li>• Keep artwork clear of hood seam, pocket, ribbing, and garment folds</li><li>• Use the current product File Guidelines template as final authority</li></ul> |
| <b>PLACEMENT TOLERANCE</b> Target placement tolerance is plus or minus 0.25 inch. Printful Design Maker placement boundaries and the current LS17001 file template override any measurement that falls outside the supported area.                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

### Decoration color standards

|                      |                                                                                          |
|----------------------|------------------------------------------------------------------------------------------|
| <b>Black garment</b> | White or soft cream artwork. Embroidery uses standard White thread. DTFlex uses #FFF9E9. |
| <b>Cream garment</b> | Black artwork. Embroidery uses standard Black thread. DTFlex uses #111111.               |
| <b>Arona garment</b> | White or soft cream artwork. Embroidery uses standard White thread. DTFlex uses #FFF9E9. |
| <b>Color count</b>   | Exactly one thread color or one solid print color per placement.                         |

### Sample requirement

- Order one Medium sample of each color in the GA embroidered program.
- Order one Medium sample of each color in the Oval printed program.
- Approve stitch quality, artwork scale, placement, garment color, wash performance, and back mark visibility before public launch.

### 3. COLLECTION AND VARIANT MATRIX

| ID  | Website product                   | Garment color | Technique           | Front                    | Back                     | Artwork color | SKU stem        |
|-----|-----------------------------------|---------------|---------------------|--------------------------|--------------------------|---------------|-----------------|
| H01 | GOOOL GA Shield Heavy Core Hoodie | Black         | Standard embroidery | GA shield, left chest    | Blank                    | White thread  | GOOOL-HC-GA-BLK |
| H02 | GOOOL GA Shield Heavy Core Hoodie | Cream         | Standard embroidery | GA shield, left chest    | Blank                    | Black thread  | GOOOL-HC-GA-CRM |
| H03 | GOOOL GA Shield Heavy Core Hoodie | Arona         | Standard embroidery | GA shield, left chest    | Blank                    | White thread  | GOOOL-HC-GA-ARN |
| H04 | GOOOL Oval Heavy Core Hoodie      | Black         | DTFlex              | Oval GOOOL, center chest | Small oval G, upper back | Cream #FFF9E9 | GOOOL-HC-OV-BLK |
| H05 | GOOOL Oval Heavy Core Hoodie      | Cream         | DTFlex              | Oval GOOOL, center chest | Small oval G, upper back | Black #111111 | GOOOL-HC-OV-CRM |
| H06 | GOOOL Oval Heavy Core Hoodie      | Arona         | DTFlex              | Oval GOOOL, center chest | Small oval G, upper back | Cream #FFF9E9 | GOOOL-HC-OV-ARN |

#### Variant build

- Create two parent products, not six separate product pages.
- Each parent product uses Black, Cream, and Arona with sizes XS through 3XL.
- Twenty one variants per parent product. Forty two total purchasable variants.
- Append size to each SKU stem, for example GOOOL-HC-GA-BLK-M.
- Enable only variants currently available in the customer delivery region.

**DO NOT SUBSTITUTE** Do not replace LS17001 with another hoodie, even if a color or size is temporarily unavailable. Disable the unavailable variant and retain the locked product blank.

- Tatami fill only where satin width is excessive.
- Do not fill the shield interior.
- Keep all GA counters and open spaces clear.
- Do not add GOOOL text, ATHLETICS text, stars, or a back mark.

**APPROVAL NOTE** Approve contrast against the physical Arona dye lot before publishing.

H04. BLACK OVAL PRINTED HOODIE

|                     |                                                                      |
|---------------------|----------------------------------------------------------------------|
| Blank               | Lane Seven LS17001 Heavy Core Hoodie                                 |
| Garment color       | Black                                                                |
| Technique           | DTFlex front plus added DTFlex back print                            |
| Front size          | 10.50 in wide by 3.23 in high                                        |
| Front position      | Centered. Top edge 4.00 in below lowest point of front neck seam.    |
| Back size           | 2.25 in wide by 1.16 in high                                         |
| Back position       | Upper center back body. Top edge 2.75 in below hood attachment seam. |
| Placement tolerance | Plus or minus 0.25 in                                                |
| Ink color           | #FFF9E9                                                              |
| Front file          | GOOOL-Oval-Front-CREAM-10.5in-300dpi.png                             |
| Back file           | GOOOL-Oval-G-Back-CREAM-2.25in-300dpi.png                            |

PRINT NOTES

- Flat solid artwork only. No gradients or shadows.
- Preserve exact oval aspect ratios.
- Front art must remain above the kangaroo pocket.
- Back mark must use the Printful Back placement on the body.
- Do not print on the hood. The concept mockup hood placement is not the production placement.
- No sleeve artwork and no additional text.

**APPROVAL NOTE** Confirm the large front print remains matte and centered. The upper back G must be printed on the body, not the hood.

H05. CREAM OVAL PRINTED HOODIE

|                     |                                                                      |
|---------------------|----------------------------------------------------------------------|
| Blank               | Lane Seven LS17001 Heavy Core Hoodie                                 |
| Garment color       | Cream                                                                |
| Technique           | DTFlex front plus added DTFlex back print                            |
| Front size          | 10.50 in wide by 3.23 in high                                        |
| Front position      | Centered. Top edge 4.00 in below lowest point of front neck seam.    |
| Back size           | 2.25 in wide by 1.16 in high                                         |
| Back position       | Upper center back body. Top edge 2.75 in below hood attachment seam. |
| Placement tolerance | Plus or minus 0.25 in                                                |
| Ink color           | #111111                                                              |
| Front file          | GOOOL-Oval-Front-BLACK-10.5in-300dpi.png                             |
| Back file           | GOOOL-Oval-G-Back-BLACK-2.25in-300dpi.png                            |

PRINT NOTES

- Flat solid artwork only. No gradients or shadows.
- Preserve exact oval aspect ratios.
- Front art must remain above the kangaroo pocket.
- Back mark must use the Printful Back placement on the body.
- Do not print on the hood. The concept mockup hood placement is not the production placement.
- No sleeve artwork and no additional text.

**APPROVAL NOTE** Confirm black ink opacity and check that the white knockout areas show the garment cleanly.

H06. ARONA OVAL PRINTED HOODIE

|                     |                                                                      |
|---------------------|----------------------------------------------------------------------|

| GOOOL-Oval-G-Back-CREAM-2.25in-300dpi.png            | 675 x 347   | 2.25 x 1.16 in           | Upper back DTFlex     |

## Printful upload selection

- For Black and Arona GA hoodies, upload the WHITE 750 by 825 badge file.
- For Cream GA hoodie, upload the BLACK 750 by 825 badge file.
- For Black and Arona Oval hoodies, upload the CREAM front and back files.
- For Cream Oval hoodie, upload the BLACK front and back files.
- Keep master files archived. Use the exact smaller Printful files when the intended physical dimensions are already encoded.

**FILE LIBRARY CONTROL** Upload each artwork once, give it the exact file name in this manifest, and reuse that same Printful File Library item. Reuploading an embroidery file can trigger another digitization.

# 11. PRINTFUL BUILD AND QUALITY CHECKLIST

|                          |                                                                                                                                            |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| <input type="checkbox"/> | Select Unisex Super Heavyweight Hoodie   Lane Seven LS17001. Confirm catalog ID 1540 in the dashboard.                                     |
| <input type="checkbox"/> | Create parent product 1: GOOOL GA Shield Heavy Core Hoodie.                                                                                |
| <input type="checkbox"/> | Choose Standard embroidery and Left Chest placement only.                                                                                  |
| <input type="checkbox"/> | Add Black, Cream, and Arona. Add XS, S, M, L, XL, 2XL, and 3XL where available.                                                            |
| <input type="checkbox"/> | Assign white badge file to Black and Arona. Assign black badge file to Cream.                                                              |
| <input type="checkbox"/> | Create parent product 2: GOOOL Oval Heavy Core Hoodie.                                                                                     |
| <input type="checkbox"/> | Choose DTFlex. Add the center front print and one added back print.                                                                        |
| <input type="checkbox"/> | Assign cream print files to Black and Arona. Assign black print files to Cream.                                                            |
| <input type="checkbox"/> | Place the small back G on the upper back body, never on the hood.                                                                          |
| <input type="checkbox"/> | Generate Printful mockups after the production template is saved. Replace concept images if the generated product view differs materially. |
| <input type="checkbox"/> | Verify all forty two intended variants and disable unavailable combinations.                                                               |
| <input type="checkbox"/> | Order and inspect six Medium samples before public launch.                                                                                 |
| <input type="checkbox"/> | Wash test one sample from each decoration program before approving care copy.                                                              |
| <input type="checkbox"/> | Do not publish until embroidery approval sheets and physical samples are approved.                                                         |

## Official production references

- Printful product page: Unisex Super Heavyweight Hoodie | Lane Seven LS17001. Verified July 23, 2026.
- Lane Seven product page: LS17001 Heavy Core Hoodie. Fabric, construction, fit, colors, care, and size data.
- Printful Help Center: Can I use my own digitized file for embroidery? High resolution transparent PNG, at least 300 DPI, and Printful digitization requirement.
- Printful Help Center: Disclaimers for Printing Techniques. DTFlex minimum line thickness and print behavior.
- Printful Help Center: What is embroidery digitization? Fixed thread palette, approval flow, and digitization reuse guidance.

**FINAL AUTHORITY** The live Printful Design Maker, current product File Guidelines, current variant availability, and Printful embroidery approval sheet are the final production authority. Stop and request approval if Printful requires any visible artwork change.
